

I have created this blog to help you find the proper download for your device. On this blog there are many links to all of the download locations for each English movie, tv show, or music albums that may be found on the internet. If you are looking for something that is not listed here then contact me. There is a chat box which you can use to ask me questions about any of the movies, tv shows, or music albums that are not listed here. Do not contact me about downloading movies, tv shows, or music albums from the Pirate Bay because it is against the law for me to provide you with these links. If you have a comment or a question then please leave a comment in the comment box below.

[/b] Why don't you just use BitTorrent? I'm not saying that downloading songs and movies from a P2P site is bad, but hiding in the legal realm of your computer is still considered very bad by governments all over the world. Is it illegal to download music? What are some free legal music streaming sites? How do I download music from YouTube?
